To Whom It May Concern,

We, **Satyam Buildtech Pvt. Ltd.**, are pleased to share our positive experience with **Laxmi En Fab Pvt. Ltd.** for AAC plant and machinery.

Our first AAC plant, with a capacity of 100,000 CM, was installed at Mahesana, Gujarat, by a reputed Chinese supplier. However, as the AAC block market grew, we decided to install a second plant with a capacity of 300,000 CM at Wada, Maharashtra, in 2020. After evaluating multiple suppliers from both China and India, we chose **Laxmi En Fab Pvt. Ltd.** due to their advanced technology and superior engineering solutions.

The plant supplied by **Laxmi En Fab Pvt. Ltd.** has been exceptional, outperforming the Chinese plant in terms of maintenance, production, and wastage. We have achieved 100% capacity utilization with consistent results.

Additionally, their timely delivery and outstanding after-sales service have been highly commendable, making them a trusted partner for our business.

We strongly recommend **Laxmi En Fab Pvt. Ltd.** to anyone seeking reliable AAC plant solutions. For further details, feel free to contact us.
