

22nd June 2016

To whomsoever it may concern

We take pleasure to appreciate the work done by M/s Laxmi En Fab Pvt. Ltd. for our requirement of Autoclave for the production of AAC blocks.

The autoclave size was 2.9 X 55.5 mtrs. which was designed, manufactured, erected & hydraulically tested upto 23kg/sqcms. pressure. The door opening - closing is done by pneumatic system. The entire job was made as per quality plan set by us & inspected by BVQI as the third party Inspection agency.

We are fully satisfied with entire process of Designing, Planning, Manufacturing, Documentation, Performance & timely service during Autoclave supply.

Keep it up. Wish you Bright future.
